Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1, 3-9 and 24-34, drawn to apparatus, classified in class 248, subclass 27.1.

II. Claims 22-23, drawn to method, classified in class 280, subclass 728.2.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as apparatus and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the apparatus as claimed can be practiced with another materially different apparatus or (2) the apparatus as claimed can be used in a materially different process of using that apparatus (MPEP § 806.05(h)). In the instant case the process can be used for installing airbag or cup holder in the instrument panel of vehicle.
